

Unique Retro-Fit Cigarette Litter Unit

This unit can be fitted in a matter of minutes into existing steel tube base bollards, 140mm or larger, eradicating the need for further steelwork on paths, pavements and public concourses.

“Turn your bollards into Ashtrays”

Make use of the existing bollard locations which are generally in areas where footfall is high.....

Locations:

- Primary and secondary retail areas
- Outdoor shopping malls
- Entrance areas
- Car parks to Shopping Malls
- Cinemas and Leisure areas
- Entrances to Bus and Railway stations
- Outside pubs and clubs

The list is endless since bollards are located in such a variety of locations.

Tough, Innovative, low maintenance design ensures trouble free working life.

Easy to empty:

Key lock supplied. Once unlocked, the liner can be withdrawn and emptied, aided by the integral wiper tool.

Capacities of 2.0L or 4.0L
Stainless Steel construction.

Can be quickly “Retro –Fitted” on site with optional fitting kit available from Urbanfab.
