

Skate Stops - Retro Fit

Spheres

Hemispheres

Solid Stainless Steel Anti-Skate Stops are designed to protect external edges and faces of walls. Available as Spheres and Hemispheres in 30mm, 40mm, 50mm and 60mm diameters. For maximum effectiveness, we recommend that the stops are located no more than 600mm apart.

Spheres can be profiled to suit most bull-nosed or chamfered applications.

Simple to Retro-Fit into almost any existing solid substrate. The surface is drilled and Epoxy resin used to retain the studs, so there are no visible fixings. To speed up installation, we can supply a steel Drilling Fixture to suit the particular application, available on request (USP-SKDT/BM)

Sphere: External Edge Protection

30mm Dia, M6 Fixing Stud:	USP-SK30FS
40mm Dia, M8 Fixing Stud:	USP-SK40FS
50mm Dia, M8 Fixing Stud:	USP-SK50FS
60mm Dia, M10 Fixing Stud:	USP-SK60FS

Sphere (Bespoke Modified): External Edge Protection

30mm Dia, M6 Fixing Stud:	USP-SK30FS/BM
40mm Dia, M8 Fixing Stud:	USP-SK40FS/BM
50mm Dia, M8 Fixing Stud:	USP-SK50FS/BM
60mm Dia, M10 Fixing Stud:	USP-SK60FS/BM

Hemi-Sphere: Flat Surface Protection

30mm Dia, M6 Fixing Stud:	USP-SK30HS
40mm Dia, M8 Fixing Stud:	USP-SK40HS
50mm Dia, M8 Fixing Stud:	USP-SK50HS
60mm Dia, M10 Fixing Stud:	USP-SK60HS
