Product information: Fully Galvanised robust smoking shelter. Framework 50mm x 25mm RHS Section steel all hot dip galvanised to BS EN ISO 1461:1999. Giving the product many years of rust free use. This is our slimline smoking shelter product 1000 mm deep so will easily fit into smaller areas or onto existing paved areas without blocking off access. Supplied as a flat pack product for self-assembly. Self-assembly is very straight forward and should take 2 operatives approx. 2-3 hours maximum. The base plates are 6 mm galvanised steel plate with four anchor holes in each plate. The back and sides have 50% panelling and the roof is fully enclosed for weather resistance. It also features small vents to the top of the side panels. The product meets with smoking shelter regulations being 50% or less enclosed.

SLIMLINE SMOKING SHELTER
