Product information: The Smoking Shelters are made with a mild steel frame and are Plate Mounted Bolt down. The Smoking Shelter is very easy to assemble and is delivered flat pack. The shelter is lightweight yet robust and being galvanised will give maximum protection from rust for many years. The assembly is very straight forward. The shelters are available in Galvanised finish however if you want a painted shelter we can have it powder coated or to save money simply assemble the frame and paint it to the desired colour using proprietary metal paint (leave it to dry) and then fit the sheeting. To hand paint a shelter will only take about one and half hours.
