At Last a fully enclosed secure compound for motorcycles, allowing for the safe and undercover storage for up to 8 motorcycles. With clear view back and side panels allowing CCTV cameras to be trained this shelter it can reduce the risk of theft and damage as well as allowing the owners to store the shelter undercover. The motorcycle shelter can be located near buildings and workplaces without major ground works or can be sited into existing car parks.

Product information: The Motorcycle Shelters are made with a mild steel frame that is fully galvanised. They come with 8 secure anchor ground anchor points. The Motorcycle shelter is plate mounted bolt down. The Motorcycle Shelter is very easy to assemble typically taking two operatives a day to assemble. This product is delivered flat pack. The shelter is robust and being galvanised will give maximum protection from rust for many years. The assembly is very straightforward. The shelters are supplied as standard in a Galvanised finish however we can have them powder coated in any standard RAL colour for prices please enquire.

The shelters can be supplied in multiple units as a continuous row to maximise and increase storage space. Just let us know your requirements and we can cost it up.

PS: This site does not track visitors and show those annoying ads all over the place also the phone number is a standard landline and we do not store your email address or send out any advertising.

To order this product please telephone 01665577022 or email [sales@urbanfab.com](mailto:sales@urbanfab.com). We will need to know the delivery address including post code and how soon you want delivery. The shelter is manufactured in large sections however assembly is a straight forward two job.
