Shelter above shown with 2 no 5 hoop racks

Product information: The Cycle Shelter Compounds are made with a mild steel frame and are Plate Mounted Bolt down. The Eco Cycle Shelter Compound is very easy to assemble and is delivered flat pack. The shelter is lightweight yet robust and being galvanised will give maximum protection from rust for many years. This is a full size shelter compound and will take up to 20 adult cycles. The assembly is very straight forward. The shelters are available in Galvanised finish only however if you want a painted shelter, simply assemble the frame and paint it to the desired colour (leave it to dry) and then fit the sheeting. To hand paint a shelter will only take about 90 minutes.

The Cycle Rack is manufactured with 50 mm diameter tube and is also fully galvanised to BS EN ISO 1461:1999. Complete with flanges for bolting directly to suitable ground surface.

Pads Foundations:

C35 Concrete set on firm bed of sand or clay

Plinth Foundations:

C35 Concrete set on firm bed of sand or clay

To order this product please telephone 01665577022 or email sales@urbanfab.com. We will need to know the delivery address including post code and how soon you want delivery. The shelter is manufactured in large sections however assembly is a straight forward two person job.
